HK-Style Taiwanese Mahjong: Hands by Difficulty

Hands are grouped from easiest to hardest, and sorted by fan (low to high) inside each group. Luck & Timing hands are listed last because you can't really plan for them. Fan = points; add up every hand that applies. Gaps separate sets; a red > means 'waiting for'. Hands tagged *+ extra* aren't on your original sheet. They're common in HK-Taiwanese play, but their values vary by table, so check your house rules.
